Major/Minor/Fix Updates

Available Updates (2021-12-09) #8

Open firat-say opened this issue 19 minutes ago · 0 comments

fiat-say commented 19 minutes ago • edited

Issue for providing information about any available update of existing event automation roles, based on currently available released versions.

The list below shows available event automation fixes and available minor or major role updates. Fixes will be ready in created pull request and you can merge them into your production branch instantly. For minor or major updates, please, review the list and if you want to update any see usage of params `update_minor`, `update_major` in the tool [readme](#).

Update type	Role name	Version	Readme	Config	Extract
MAJOR	service-restart	from 2.4.1 to 3.4.1	README	CONFIG	EXTRACT
MINOR	disk-usage-alert	from 1.6.9 to 1.7.2	README	CONFIG	EXTRACT
FIX	server-unavailable	from 1.2.4 to 1.2.5	README	CONFIG	EXTRACT
